## J. Youth Employment (2018)

Project Brief: C-DRAṢṬĀ undertook a survey covering four districts of West Bengal viz. North 24 Parganas, Jalpaiguri, Malda and South Dinajpur for the study of Impact of Education on Youth Employment in Rural India with focus on West Bengal. The survey was based on research design developed at C-DRAṢṬĀ as part of research advisory for the study with Dr. Rajlakshmi Mallik as the lead advisor from C-DRAṢṬĀ. The project was hosted and conducted by Department of Economics, Rishi Bankim Chandra Evening College and funded by University Grants Commission.

The survey also provided an opportunity for student research interns to gain an understanding of the socio-economic issues being addressed such as presence of regional effects, sectoral effects and gender effects in the level and nature of employment among youth as also in the relationship between education and employment. It also enabled them to get field experience and develop an understanding of problems faced when theories are put into practice and provided them an opportunity to find practical solutions to such problems.

J. Youth Employment	Index No.	DESCRIPTION
	J1 to J4	Researcher Himadry Dutta taking interviews of youths
